THE CUBAN DEBATE

Representatives Favoring Belligerent Rights For Cuba Defeated.

MR. HITT MAKES A SPEECH

He Reviewed the Administration's Efforts on Behalf of Cuba and Asked Congress to Stand by the Executive—President Would Not Disappoint the People—Other Washington News.

WASHINGTON, Jan. 20.—All day long yesterday the question of granting belligerent rights to the Cuban insurgents was argued in the house, but the minority hurled itself against the stone wall. The only vote taken was on a motion designed to overrule the decision of the speaker and direct the committee on foreign affairs to report without further delay the Cuban resolution, passed by the senate at the last session. The Republicans stood solid and voted to sustain the chair.

The galleries were banked to the doors and there was considerable excitement throughout the early part of the session when the members of the minority were successively pressing all sort of amendments bearing on the Cuban question for the purpose of embarrassing the majority.

During the debate Chairman Hitt of the foreign affairs committee made an impressive speech of less than an hour explaining at length the situation which made action by congress inadvisable. He spoke with impassioned words of the president's sympathy with the struggle for Cuban independence and the achievements of the present administration. The release of American prisoners in Cuba, the recall of Weyler, the abandonment of the policy of concentration and the autonomy scheme he contributed to the firm attitude of the president and contrasted these results with the inaction of the last administration.

He averred that belligerent rights could not aid the insurgent cause, and perhaps the most dramatic portion of his speech came when he declared that the insurgents only wished for belligerent rights in the hope and belief that this country would be embroiled in a war with Spain, which would give them their freedom with our triumph. He asserted that the president must assume the responsibility of any action which might eventuate in war and appealed to both sides of the chamber to patriotically support the executive if a crisis shall come.

While he could not prophesy as to the future, he solemnly assured the house that the president would not disappoint the expectations of his countrymen. Throughout Mr. Hitt's speech he was listened to with the closest attention. Members crowded about him and the thronged galleries leaned over to catch his words. As he concluded a roar of applause swept the floor and the galleries.

IMPORTED CATTLE.

Decree Permitting Their Free Admission to Cuban Ports Extended.
WASHINGTON, Jan. 20.—General Leo cabled the state department yesterday afternoon that all was quiet at Havana. He also reported that the decree issued Nov. 4 last, admitting free imported cattle into Cuba until Jan. 18, has been extended until March 10, 1898, under the same conditions contained in the first decree.

Orders were yesterday telegraphed to Captain Sigaboe of the Maine, at Key West, to join the North Atlantic squadron for drills and maneuvers when Admiral Sigsbee passes Key West on the way to the Tortugas harbor. It is expected that the whole squadron will be near Key West by this evening and a good deal of powder will be burned in drills near there.

Senate and House.

WASHINGTON, Jan. 20.—In the senate yesterday Mr. Vest gave notice that at the conclusion of the morning hour today he would move to take up Senator Teller's resolution to pay United States bonds in standard silver dollars. A resolution was introduced by Mr. Turpie to appoint a commission to make a survey from the lower part of Lake Michigan to the Walash river for a ship canal. Mr. Hoar introduced a resolution relative to a recent order of the postmaster general in reducing the number of letter-carriers in some of the larger cities, which caused a protracted debate. The house consumed the entire day discussing the Cuban question.

Indiana Postmasters.

WASHINGTON, Jan. 20.—Indiana postmasters were appointed yesterday as follows: Clare, Charles E. Mitchell; Heltonville, Newton H. Robert; Rigdon, John M. Day.

MINERS' CONVENTION.

Scale Committee Will Probably Recommend a Nine-Hour Day.

CHICAGO, Jan. 20.—Two brief sessions were held by the interstate bituminous coal operators and miners yesterday. From a public point of view everything in and about the convention appeared calm, but in the secrecy of the scale committee chamber the old war between operators of the Ohio and Pennsylvania fields was fiercely raging. Early in the session of the committee the question of hours of labor was thoroughly gone over. Representatives of the workmen favored an 8-hour day, but their principal contention was for a uniform day in place of the varying hours now established in the different states. The operators were willing to meet them half way, and it is understood a uniform working day of nine hours will be recommended to the convention.

The knotty problem of state differentials was taken up. This brought Ohio and Pennsylvania operators together with a crash. In order to allow them full swing the regular committee took a recess until evening. The Ohio and Pennsylvania operators then went into session by themselves. The issue between these two states is of years standing. Ohio operators have hitherto succeeded in securing a rate of 5 to 10 cents per ton below the Pennsylvania scale, while it is claimed by the Pennsylvania people that Ohio operators obtain 25 to 30 cents more per ton for their output.

Question of Endurance.

BOSTON, Jan. 20.—The third day of the New England cotton and woolen industrial centers has been an uneventful one. Those who were at first inclined to believe that either the strikers or mill owners would hold out only a few days have now come to the conclusion that the matter has now settled down to a contest of endurance. There are no signs of concession by either side.

BRIEBRY INVESTIGATION.

All the Witnesses Refuse to Answer Questions.

COLUMBUS, O., Jan. 20.—The investigation into the charges of bribery at the recent election of United States senator reached a crisis last night. No matter what may be the final result of the investigation there will likely be several witnesses arrested for contempt. The committee had several witnesses subpoenaed for last night, but they were not all examined, because none of them would testify.

Chairman Burke, Senators Lang and Finck did their best to draw out the witnesses, but to no avail. After the four others took their turns, Senator Garfield would close each examination by asking: "Do you decline to answer questions because your attorneys say this committee has no jurisdiction in this case and has so advised you?" All answered in the affirmative. The committee will ask the senate to punish the witnesses for contempt and to give the investigators full authority.

GLADSTONE'S HEALTH.

Official Medical Statement Says There Is No Cause For Alarm.

LONDON, Jan. 20.—An official medical statement issued last night, in view of dispatches sent out yesterday, says that there is no cause for alarm as to Mr. Gladstone's health, although it is not benefited as much as had been hoped at Cannes. The facial neuralgia pains persist with daily fluctuations owing to the cold winds and wet weather, but the complaint is quite local. His physical powers have not suffered; his strength is good; his appetite excellent; he joins the family at meals and takes regular drives, weather permitting.

It is not true that the family had been summoned. Mr. and Mrs. Henry Gladstone will go to Cannes on Saturday in accordance with an arrangement made weeks ago.

ROBLEDO'S PROTEST.

Very Mild Document Presented to the Queen Regent.

MADRID, Jan. 20.—The address to the queen regent, signed by Senor Romero Robledo and others, is a mild toned document, disclaiming responsibility for the "infraction of the constitution by the government's unprecedented action in changing the government of the Antilles without the co-operation of the cortes." The signatories declare that they are aware of the difficulties surrounding the government, but consider it their duty to demand that the cortes be summoned.

Leaves For Washington.

SAN FRANCISCO, Jan. 20.—Unattended by civic or military escort, with no firing of cannon or tooting of whistles, President Sanford B. Dole, of Hawaii, departed from San Francisco as he arrived, with the same lack of ceremony as would mark the movements of any traveler, on his journey to Washington.

RAILROAD PROPERTY

President Ripley's Views on Government Ownership.

REPLY TO A KANSAS EDITOR

Strongest Plea In Favor of Uncle Sam Controlling These Arteries of Trade Made by a Railroad Man—Scandal and Jobbery Would Result From the Change of Conditions.

CHICAGO, Jan. 20.—President Ripley of the Atchison, Topeka and Santa Fe railroad has written a letter to the editor of a Kansas Populist paper, replying to a communication published in that paper citing the number of people killed by the railroads of the United States as a reason why these railroads should be put under government control. Mr. Ripley points out that the railroads carry the whole population of the state of Kansas two and a half times over before one passenger is killed; that last year the trains on the railways in Kansas ran over 800,000 miles, yet only one employee's life was sacrificed for every 431,000 miles.

Of 4,406 others killed in the United States in 1896, the reports show that 3,811 were trespassers, that is to say out of every 22 persons killed 19 were killed because they were breaking the law and were in places where the railway people had no reason to expect to find them.

He draws the conclusion that the plea of government ownership because of the number of persons killed by railroads is worthless. Next comes the question whether or not the owners of railroads are opposed to government ownership and he points out that the strongest plea made in behalf of government ownership is that of T. B. Blackstone, president of the Chicago and Alton road who urged it as a measure of justice to the railway investors. There is no holder of railway securities, he says, who does not believe that those securities would be advanced in value if there was any prospect of the government buying them.

The most serious considerations are, Mr. Ripley says, political ones. There 850,000 railway employees in the United States. Under government ownership each one of these would be a political appointee. This, he says, would not only lower the character of the service, but "would be appalling in the tremendous political supremacy which those 850,000 employees would give to the party in power."

"Worse still would be the political results of the contracts for the construction of new lines, etc. The scandals and jobbery of the river and harbor appropriations or of the tariff bill would be nothing compared to the field which would be open to the spoilsmen by the railroads. The building of new lines would depend entirely on political 'pull.' Districts or states of a political complexion opposed to that of the party in power would have to wait till the crack of doom for any new lines, and in districts where the friends of the administration came from there would be lines as thick as stripes on a cat's back."

AMERICAN CROOKS.

Continued Revelations of Their Work In Mexico.

MEXICO CITY, Jan. 20.—The revelations regarding the operations of the gang of American crooks with Mexican allies continue to be made and show a most surprising series of swindles including the well known gold brick trick, robbing by means of rendering the victims insensible with knockout drops, cheating at cards, poisoning race horses on which the public had bet heavily, etc.

Mr. Taylor of this city, was lured by the gang into a town where he was told he would get large orders and was rendered insensible by drugged beer and robbed of his diamonds and money. The police are making fresh arrests.

CHAUTAUQUA ASSEMBLY.

Its Educational Work Successful During the Past Year.

ERIE, Pa., Jan. 20.—The board of trustees of the Chautauqua assembly met at the Reed house yesterday with representatives from all parts of the country. The treasurer's report showed total receipts to the amount of \$94,000. The expenses were about \$8,000 less than this amount. Bishop Vincent, in his report as chancellor, called attention to the successful work of the educational department during the past summer and outlined plans for the coming season. The schools will continue under the charge of President W. R. Harper of the University of Chicago.

Desired to Be Buried In Kentucky Soil.
PARIS, Ky., Jan. 20.—The body of Johnson Rogers was interred here yesterday afternoon. Mr. Rogers was born in Bourbon county 60 years ago. Eight years ago he moved to St. Paul and engaged in the livestock commission business. He died of softening of the brain. The deceased left a request that he be buried beside his first wife in his native Kentucky soil.

Lee's Birthday Celebrated.

RICHMOND, Va., Jan. 20.—General R. E. Lee's birthday was celebrated here by the closing of the public and private schools, banks, public offices and business exchanges. Addresses were made at the Soldiers' home and Lee camp hall.

Big Lumber Deal.

LEXINGTON, Ky., Jan. 20.—The Central City Lumber and Stave company of Clay City has a 10-day option on the Outer Lumber company's stock of timber standing on and floating in Red river. If the deal is consummated about \$300,000 will change hands.

MERRY HOPELESS.

The Wife Murderer Says the Jury Will Hang Him.

CHICAGO, Jan. 20.—The case of Chris Merry and James Smith will go the jury this afternoon. Merry expects no mercy. Smith does. "The jury will hang me," Merry repeated many times yesterday. He made practically no defense and was deaf to all the arguments of his attorneys. He feared the cross-examination. He said repeatedly: "I don't know who killed Polly. I did not see her—have never seen her since before 4 and 5 o'clock on Friday afternoon, Nov. 9."

"Why not go on the witness stand and tell your story to the jury?" urged Colonel Davidson, his counsel. "You cannot hurt your case, and you may benefit yourself."

Merry shook his head and declared it was useless for him to say a word.

OUTLAWS SURRENDERED.

Several of Black Jack's Gang Reported Killed.

TUCSON, Ariz., Jan. 20.—It is reported that Black Jack's gang of outlaws was surrounded in the mountains near the boundary line by several posses, including the posses sent out by the Mexican government, and a fight occurred in which one of the robbers was killed and four captured. Two attempted to escape after being caught, and were shot in flight. The other two were in the hands of the Mexican officers and it is claimed they met death in like manner. The remainder of the freebooters went in a southerly direction, and are supposed in the interior of Mexico in the Sierra Madre mountains.

RATES RAISED.

Costs More Now to Go to the Alaskan Ports.

SEATTLE, Wash., Jan. 20.—The expected advance in rates to Alaska has been announced. The several transportation companies, who control nearly all the business, have agreed on an increase of \$10 to the passenger rate between Puget Sound points and Dyea and Skagway and a proportionate increase to Juneau and other southeastern Alaska points.

The new rate to Dyea and Skagway, which goes into effect at once, is: First class, \$50; second class, \$35. The rate on freight is advanced from \$10 to \$13 per ton.

Suicided at His Sweetheart's Feet.

FORTORIA, O., Jan. 20.—John Reichart of this city shot himself at the feet of the woman he loved. For years he had been paying court to a highly respected lady, a cashier in one of the leading dry goods stores. Recently she threw him over at the request of her mother and friends. When she left the store with a friend, he asked to accompany them, and, being refused, he followed her home, overtaking her at the door. He pleaded earnestly to be taken back. This she refused to do, and he shot himself in her presence. The deceased was a breeder of fine saddle horses and quite wealthy. He left a will making his sweetheart, Mrs. Chilcoat, his heir.

A \$14,000 SHORTAGE

Motive For Treasurer Kirtley Committing Suicide at Fowler.

TIME TO START TO KLONDIKE.

Don't Wait For Spring to Start For the Klondike Is the Advice of an Indian—Indiana State Oratorical Contest. One Woman's Misfortunes—Likes His Old Home Better.

FOWLER, Ind., Jan. 20.—The motive for the suicide of Treasurer James Kirtley of Benton county was disclosed last night, when the committee appointed to investigate the accounts of the suicide made their report. They found a shortage of \$14,000. Kirtley had just been re-elected treasurer and would have been called upon to account for money in his possession and give a new bond. At the time of his suicide he had not found bondsmen.

News of the shortage created a sensation here. It is said that he left \$5,000 insurance, and real estate valued at \$5,000. His widow, who is worth about \$20,000, is said to be willing to make good the shortage. Kirtley killed himself on the night of Dec. 29.

DON'T WAIT.

Start For the Klondike Now Is the Advice of an Indian.

MONTPELIER, Ind., Jan. 20.—D. M. Schermerhorn has written his brother, P. V. Schermerhorn, of this city, from Alaska as follows:

"One thing I wish to say, and you can swear by it. If any one is going to Klondike, go at once; do not wait until spring. The reports in many of the papers about the pass are not true; it is all right. No one can get over White pass either now or in the spring, but the Chilkoot winter pass is now being traversed successfully. We made three trips from and to the seals in just three weeks and carried over 4,000 pounds of provisions. There is plenty of gold here."

ON SCHEDULE TIME.

What an Arkansas Preacher Will Do For Hoosiers.

JEFFERSONVILLE, Ind., Jan. 20.—A man with the general air of a cowboy, appeared at the recorder's office here and filed a singular document, simply saying he intended to preach the gospel in Indiana. The following clause is taken from the document:

"State of Arkansas, Monroe county.—This is to certify that we are well acquainted with the Rev. Robert Miller, D. L. L. D., and that he is an evangelist of the highest repute, infallible in the expounding of the mysteries of the bible. His teachings should be followed to the letter, and all men who will do so will reach the golden shore of the new Jerusalem on schedule time without fail."

The paper was signed by alleged county officers and two ministers.

Swallowed Pins.

TILDEN, Ind., Jan. 20.—Miss Lulu Gray, 20 years old, living near here, about a week ago swallowed two pins. One she succeeded in ejecting from her throat, but the other lodged on a level with the top of the breastbone. She consulted a physician, who told her it would have to be cut out. This she declined, and since has been suffering terribly. Death is expected.

MASKED ROBBERS.

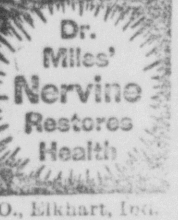

Whole Family Bound and Gagged and Their Home Looted.

LIMA, O., Jan. 20.—Five masked men entered the residence of Mrs. Anna Gratz, two miles east of Beaver Dam, this county, and at the point of a revolver bound and gagged every member of the household, consisting of Mrs. Gratz, a daughter, three sons, aged from 10 to 18 years and two farmhands, John Hunsstein and Adolph Follett. Leaving one of their number to guard their victims, the remaining four robbers then looted the house, securing about \$50 in money, two gold watches and some jewelry, after which they repaired to the kitchen and cooked themselves a breakfast. After eating a hearty meal they departed leaving the family still bound. About an hour later one of the

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

Republican township convention is next Saturday

Don't forget the township conventions Saturday January 22

Go to your township convention next Saturday and help select your representatives on the county central committee and those delegates to the congressional convention at Greensburg, February 1.

EVERY republican in the county should bear in mind that Saturday January 22, is the date fixed to select the members of the county central committee, and to appoint delegates to the district convention, which will be held at Greensburg, February 1.

JOE RILEY is a democratic candidate for clerk of the supreme court and while he lives in Indianapolis, he desires to announce from Jennings county. Though he once lived over in Jennings he has not resided there for some time and it is said that his posing as a Jennings county man is for the purpose of dividing up the vote of the Fourth district with Allen W. Clark who is a candidate for the same office.

If the democrats of this district and in act of the state do not give the nomination to Clark practically without opposition they will be guilty of the grossest ingratitude for no man in the state has done so much for the party along the line of the Chicago platform as Clark.

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McELREE'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, Dr. Miles' Medical Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

OLD CATERER ON TERRAPIN.

When It Is Ready, the Satisfaction Is In "Eating It All Yourself."

James Prosser, a famous colored caterer of this city, dead long ago, furnished the following formula for preparing and serving terrapin, which was published in a gastronomic journal at the time when he was on earth:

"You can't enjoy terrapin unless the day is nippin'. Temperature and terrapin go hand in hand. Now, as to your terrapin. Bless you, there is all the difference in the world in them. The more northerly is the terrapin found the better. You eat a Florida terrapin—you needn't despise it, for terrapin is terrapin everywhere—but you get a Chesapeake one or a Delaware bay one, or, better still, a Long Island one, and there is just the difference between \$10 a dozen and \$30. Warm water kinder washes the delicate flavor out of them. Don't you let Mr. Bergh know it, but your terrapin must be boiled alive. Have a good big pot, with a hot fire under it, so that he shan't languish, and when it has got on a full head of steam pop him in. What I am going to give is a recipe for a single one. If you are awfully rich and go in for a gross of terrapin, just use your multiplication table. Just as soon as he caves in watch him and try his flippers. When they part when you pry them with your finger nail, he is good. Open him nicely with a knife. Billin of him dislocates the snuffbox. There ain't no overmuch of it, more's the pity. The most is in the joints of the legs and side lockers, but if you want to commit murder just you smash his gill, and then your terrapin is gone forever. Watch closely for eggs and handle them gingerly. Now, havin' got him or her all into shape, put the meat aside. Take three fresh eggs—you must have them fresh. Bile 'em hard and mash 'em smooth. Add to that a tablespoonful of sifted flour, three tablespoonfuls of cream, salt and pepper (red pepper to a terrapin is just depravity) and two winglasses of sherry wine. Wine as costs \$2.50 a bottle ain't a bit too good. There never was a gotega in all Portugal that wouldn't think itself honored to have itself mixed up with a terrapin. Now you want quite a quarter of a pound of the very best fresh butter and put that in a porcelain covered pan and melt it first—mustn't be browned. When it's come to be oily, put in your terrapin, yolks of eggs, wine and all. Let it simmer gently. Billin up two or three times does the business. What you are after is to make it blend. There ain't nothin that must be too pointed in terrapin stew. It wants to be a quiet thing, a suave thing, just pervaded with a most beautiful and natural terrapin aroma. You must serve it to the people that eats it on a hot plate, but the real thing is to have it on a chafin dish, and though a man ought not to be selfish there is a kind of divine satisfaction in eatin it all yourself."—Philadelphia Times.

The Modern Agnostic.

We look at our churches with their congregations, growing in numbers and dwindling in faith, says H. G. Chapman in The Atlantic, and we ask ourselves: In all these buildings, cheap or costly, what real prayers rise, and of those that rise do any get above the roof? What God hears them and has there ever been an answered prayer? We look at the face of the dead and repeat a burial service. If after the manner of men I have fought with beasts at Ephesus, what advantage it me if the dead rise not? And as we say the words we ask ourselves, "Do the dead rise?" And if any one is found who believes these things he knows that there is another at his elbow who believes them not a whit or an atom, and these two can hit on no universe that shall satisfy both, nor can one be poet to the other.

TURKISH CUSTOM HOUSE.

The Troubles Travelers Have, Especially With Books and Maps.

Many amusing stories are told of the trouble American travelers have had with the custom house authorities in Turkey, especially with books and maps. In the old days one's baggage would be dumped down on the landing place at Constantinople, and a turbaned old Turk, thibouk in hand, would go through a pantomime of examining one's effects, which would be abruptly brought to an end by the application of an appropriate coin to the palm of his hand. But the political troubles that began some years ago in the Ottoman empire caused the government to institute a more stringent system, and there is now at Constantinople a custom house more after the American style, where a number of officials, in fez and Stamboul coats of the regular official cut, pry into one's luggage with particular care in search of papers and books and maps of a revolutionary tendency or in which words forbidden to be printed in Turkey may be found.

During the height of the Armenian agitation especially close search was always made for anything with the word "Armenia" in it, and whatever it was found in was summarily confiscated. On the occasion of my last visit to Constantinople I happened to have a map of Asia Minor among my papers, the discovery of which greatly agitated the examining official, who spoke in a language he thought was French. "Ah, Azeez Meenoor!" he exclaimed as he spread it out, continuing in his Turkish, "Show me Erzerum." Having pointed out to him the spot where that city was to be found, he began running his finger over the map until he struck upon the letter A. This seemed almost to take his breath away, but when a short distance to the right of it he found the letter R he fairly gasped. The detection of the letter M following it was like an electric shock, and a bomb explosion could not have startled him more than the discovery of the letter E. By the time he had deciphered the remaining letters, NIA, I saw that the game was up, and as he folded up my precious map and in stern and measured syllables announced to me that it was "de-fon-dew, con-fis-kay," I knew that it was not for me forever. A Review with an article alluding to the disturbed condition of affairs in the Turkish empire followed the map, along with some foreign newspapers.—Harper's Round Table.

Wasting Time.

They were dining off fowl in a restaurant. "What are you eating?" he explained, as he moved her the wishbone. "You take hold here and I'll take hold here. Then we must both wish and pull on it when it breaks and one who has the larger part of it will have his wish gratified." "But I don't know what to wish for," she protested. "Oh, you can think of something." "No, I can't," she replied. "I can't think of anything I want very much." "Well, I'll wish for you," he exclaimed. "Will you really?" she asked. "Yes." "Well, then, there's no use fooling with the old wishbone," she interrupted with a glad smile. "You can have me." —Comic Cuts.

Lady Dufferin, in her amusing book, "Viceregal Life in India," gives some good examples of "baboo" English. One of the natives was told to write an essay on the horse in an examination, and this was the result: "The horse is a very noble animal, but when irritated ceases to do so."

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to some weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its nine cents of this offer.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist, Will Send Free, to the Afflicted, Three B. Titles of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the SEYMOUR REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 98 Pine street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the SEYMOUR REPUBLICAN.

RAILROAD RUMBLINGS.

The big corn rush from the "Q" line to Baltimore by way of the B. & O. S. W. is about complete.

The telegraph wires were blown down on the Southern Indiana last night east of Freetown. They will be in position by tonight.

One of the new engines, No. 14 pulled a big freight train from the west last evening over the Southern Indiana. It handled the train well.

Sick stomach means sick man [or woman].

Why not be well? Sick stomach comes from poor food poor nourishment means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order.

But, unless we are doctors, we never see our stomach. We only feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat. It gives the system a tonic and soon makes you well and strong again.

Take your stomach, the less you will feel of your stomach.

February McClure.

McClure's Magazine for February will contain a series of historical life portraits of Lincoln—portraits showing his features at particularly important time.

The next chapter of Charles A. Dana's "Reminiscences of men and events of the Civil War" (in the February McClure's) will give Mr. Dana's impressions of Rosecrans, Thomas and Garfield as he saw them socially, and in council and in fight, at the time of the battle of Chickamauga. It will also give the inner history of Thomas' displacement of Rosecrans. The paper will be illustrated with interesting portraits and views.

"I take pleasure in recommending Chamberlain's Colic, Cholera and Diarrhoea Remedy to all who suffer from pains in the stomach," says Mr. Milt McKinley, editor of the Rawson (Ohio) Herald. "Until I used this remedy it was, at times, impossible for me to be in my office, owing to attacks lasting from one to two days. By taking it as soon as the first symptoms of the attack are felt, I no longer suffer this unpleasant sickness." For sale by C. W. Milbous.

The World's Almanac.

The World Almanac for 1898 has been issued and is bigger, better and more valuable than ever. It is chucked full of facts, statistics, etc., so that it is a veritable encyclopedia. It is the handiest, and most complete current reference book published.

Mr. Elisha Berry, of this place, says he never had anything do him so much good and give such quick relief from rheumatism as Chamberlain's Pain Balm. He was bothered greatly with shooting pains from hip to knee until he used this liniment, which affords prompt relief.—B. F. Baker, druggist, St. Paris, Ohio. For sale by C. W. Milbous.

THE DREADED BACK DRAFT.

One of the Worst Perils That Confront the Firemen.

In St. Nicholas there is an article on "The Perils of a Fireman's Life," by Charles T. Hill, who has written several articles on the New York fire department for this magazine. Mr. Hill says:

Next to a dangerous cellar fire nothing is more dreaded by the men than what is known in their own language as the "back draft." This is a sudden veering of the flames, usually caused by the burning away of some portion of the building that gives the fire renewed draft and changes its course completely.

The firemen arrive and find the whole second or third floor of a building in flames. Axes in hand, they smash open the doors, and with the hose dash up the stairway. This is all airc, and the flames are rolling above like a red pall.

With the engine at work and good pressure on the line, the battle between the two elements, fire and water, begins. Inch by inch the men fight their way up the stairway, now to retreat as the fire gains upon them and now to advance as it rolls away for a moment.

The encouraging words of the commanding officer are heard behind them urging them on: "Now, get in, boys! That's it—get in—get in! Make the next landing! Hit it up, boys!" and all the other words of encouragement that he usually gives.

They finally reach the landing. They are on the floor with the fire. It rolls away from them. They drive it farther back. Encouraged by their seeming victory, they drag up more of the heavy hose to make a final dash at it, when suddenly something falls in at the rear of the fire that gives it renewed draft. It rolls toward them, an impenetrable wall of fire—the deadly back draft! Their only chance of escape is to throw themselves upon their faces, in hope that it may roll over them, or to hurl themselves down the stairs up which they have so gallantly fought their way. Better a broken leg or arm than death by roasting, and the water of 50 engines could never stay the progress of that awful wave of flame.

Many a brave fellow has lost his life in this manner, and very often all the members of a company return with their eyebrows, hair and beard singed off, bearing evidence that they have been "ketch'd," as they express it, by a less terrible form of this deadly draft.

VILLAGE ODDITIES.

English Towns Distinguished For Being One of a Kind.

Undoubtedly the most extraordinary township in England is that of Skidaway, in Cumberland. It contains but one house, the occupier of which is unable to exercise the Briton's privilege of voting because there is no church or other place of worship or assembly on which to publish one.

The most remote village in England is that of Farley-cum-Pittton. This truly rural spot is 30 1/2 miles from the nearest railway station. As a contrast to this may be mentioned the town of Ystad, about 10 miles from Cardiff.

This tiny settlement possesses two important main roads, two railways and two large rivers.

A very unique feature is exclusively claimed by Tring, a small village in Suffolk. In the one churchyard of the parish are churches of three different periods.

Service is conducted three times a week in each of these churches at the same hour.

The deepest well in England is found at Hamilton, in Hampshire. It stretches 850 feet below the surface of the earth. About half way down this well shaft is a subterranean lake in length, which leads to the seacoast.

On the top of the parish church tower in Bicknoller, Somersetshire, is a yew tree, now five feet high and still growing in a hardy fashion. It is generally believed that the tree owes its origin to a seed dropped by a bird.

Perhaps the most splendidly decorated church in the kingdom is that of Whitley Court, Worcestershire. It is entirely constructed of white marble, the pews are chastely carved, and the pulpit is of genuine Carrara marble, richly paneled with precious stones.

On the village green at Meriden, in Warwickshire, there is a large stone cross which is supposed to mark the central point of England.—Pearson's Magazine.

A Thing to Boast Of.

Schoolfellows learn each others' failings if nothing else and recall after years of separation the characteristic thing about an old seatmate.

Two men who had been at school together when they were boys met and talked of old times.

"By the way," said one, "I saw Smith when I was out at Seattle."

"Did you? And what was he bragging about when you saw him?"

"He was bragging about his modesty just at that moment."

"Dear old Smith—just like him."—Youth's Companion.

When You Have a Bad Cold

You want the best medicine that can be obtained, and that is Chamberlain's Cough Remedy.

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy is the only medicine in use that meets all of these requirements. This remedy is famous for its cures of bad colds throughout the United States and in many foreign countries. It has many rivals, but for the speedy and permanent cure of bad colds, stands without a peer and its splendid qualities are everywhere admired and praised. For sale by C. W. Milbous.

THE CUBAN DEBATE

Representatives Favoring Belligerent Rights For Cuba Defeated.

MR. HITT MAKES A SPEECH

He Reviewed the Administration's Efforts on Behalf of Cuba and Asked Congress to Stand by the Executive—President Would Not Disappoint the People—Other Washington News.

WASHINGTON, Jan. 20.—All day long yesterday the question of granting belligerent rights to the Cuban insurgents was argued in the house, but the minority hurled itself against the stone wall. The only vote taken was on a motion designed to overrule the decision of the speaker and direct the committee on foreign affairs to report without further delay the Cuban resolution, passed by the senate at the last session. The Republicans stood solid and voted to sustain the chair.

The galleries were banked to the doors and there was considerable excitement throughout the early part of the session when the members of the minority were successively pressing all sort of amendments bearing on the Cuban question for the purpose of embarrassing the majority.

During the debate Chairman Hitt of the foreign affairs committee made an impressive speech of less than an hour explaining at length the situation which made action by congress inadvisable. He spoke with impassioned words of the president's sympathy with the struggle for Cuban independence and the achievements of the present administration. The release of American prisoners in Cuba, the recall of Weyler, the abandonment of the policy of concentration and the autonomy scheme he contributed to the firm attitude of the president and contrasted these results with the inaction of the last administration.

He averred that belligerent rights could not aid the insurgent cause, and perhaps the most dramatic portion of his speech came when he declared that the insurgents only wished for belligerent rights in the hope and belief that this country would be embroiled in a war with Spain, which would give them their freedom with our triumph. He asserted that the president must assume the responsibility of any action which might eventuate in war and appealed to both sides of the chamber to patriotically support the executive if a crisis shall come.

While he could not prophesy as to the future, he solemnly assured the house that the president would not disappoint the expectations of his countrymen. Throughout Mr. Hitt's speech he was listened to with the closest attention. Members crowded about him and the thronged galleries leaned over to catch his words. As he concluded a roar of applause swept the floor and the galleries.

IMPORTED CATTLE.

Decree Permitting Their Free Admission to Cuban Ports Extended.

WASHINGTON, Jan. 20.—General Lee cabled the state department yesterday afternoon that all was quiet at Havana. He also reported that the decree issued Nov. 4 last, admitting free imported cattle into Cuba until Jan. 18, has been extended until March 10, 1898, under the same conditions contained in the first decree.

Orders were yesterday telegraphed to Captain Sigsbee of the Maine, at Key West, to join the North Atlantic squadron for drills and maneuvers when Admiral Sigsbee passes Key West on the way to the Tortugas harbor. It is expected that the whole squadron will be near Key West by this evening and a good deal of powder will be burned in drills near there.

Senate and House.

WASHINGTON, Jan. 20.—In the senate yesterday Mr. Vest gave notice that at the conclusion of the morning hour today he would move to take up Senator Teller's resolution to pay United States bonds in standard silver dollars. A resolution was introduced by Mr. Tarple to appoint a commission to make a survey from the lower part of Lake Michigan to the Wabash river for a ship canal. Mr. Hoar introduced a resolution relative to a recent order of the postmaster general in reducing the number of letter-carriers in some of the larger cities, which caused a protracted debate. The house consumed the entire day discussing the Cuban question.

Indiana Postmasters.

WASHINGTON, Jan. 20.—Indiana postmasters were appointed yesterday as follows: Clara, Charles E. Mitchell; Helioville, Newton H. Robert; Rigdon, John M. Day.

MINERS' CONVENTION.

Scale Committee Will Probably Recommend a Nine-Hour Day.

CHICAGO, Jan. 20.—Two brief sessions were held by the interstate bituminous coal operators and miners yesterday. From a public point of view everything in and about the convention appeared calm, but in the secrecy of the scale committee chamber the old war between operators of the Ohio and Pennsylvania fields was fiercely raging. Early in the session of the committee the question of hours of labor was thoroughly gone over. Representatives of the workmen favored an 8-hour day, but their principal contention was for a uniform day in place of the varying hours now established in the different states. The operators were willing to meet them half way, and it is understood a uniform working day of nine hours will be recommended to the convention.

The knotty problem of state differentials was taken up. This brought Ohio and Pennsylvania operators together with a crash. In order to allow them full swing the regular committee took a recess until evening. The Ohio and Pennsylvania operators then went into session by themselves. The issue between these two states is of years standing. Ohio operators have hitherto succeeded in securing a rate of 5 to 10 cents per ton below the Pennsylvania scale, while it is claimed by the Pennsylvania people that Ohio operators obtain 25 to 30 cents more per ton for their output.

Question of Endurance.

BOSTON, Jan. 20.—The third day of the New England cotton and woolen industrial centers has been an uneventful one. Those who were at first inclined to believe that either the strikers or mill owners would hold out only a few days have now come to the conclusion that the matter has now settled down to a contest of endurance. There are no signs of concession by either side.

BRIEBRY INVESTIGATION.

All the Witnesses Refuse to Answer Questions.

COLUMBUS, O., Jan. 20.—The investigation into the charges of bribery at the recent election of United States senator reached a crisis last night. No matter what may be the final result of the investigation there will likely be several witnesses arrested for contempt. The committee had several witnesses subpoenaed for last night, but they were not all examined, because none of them would testify.

Chairman Burke, Senators Lang and Fink and their best to draw out the witnesses, but to no avail. After the four others took their turns, Senator Garfield would close each examination by asking: "Do you decline to answer questions because your attorneys say this committee has no jurisdiction in this case and has no authority?"

GLADSTONE'S HEALTH.

Official Medical Statement Says There Is No Cause For Alarm.

LONDON, Jan. 20.—An official medical statement issued last night, in view of dispatches sent out yesterday, says that there is no cause for alarm as to Mr. Gladstone's health, although it is not benefited as much as had been hoped at Cannes. The facial neuralgia pains persist with daily fluctuations owing to the cold winds and wet weather, but the complaint is quite local. His physical powers have not suffered; his strength is good; his appetite excellent; he joins the family at meals and takes regular drives, weather permitting. It is not true that the family had been summoned. Mr. and Mrs. Henry Gladstone will go to Cannes on Saturday in accordance with an arrangement made weeks ago.

ROBLEDO'S PROTEST.

Very Mild Document Presented to the Queen Regent.

MADRID, Jan. 20.—The address to the queen regent, signed by Senor Romero Robledo and others, is a mild toned document, disclaiming responsibility for the "infraction of the constitution by the government's unprecedented action in changing the government of the Antilles without the co-operation of the cortes." The signatories declare that they are aware of the difficulties surrounding the government, but consider it their duty to demand that the cortes be summoned.

Leaves For Washington.

SAN FRANCISCO, Jan. 20.—Unattended by civic or military escort, without firing of cannon or tooting of whistles, President Sanford B. RAILROAD PROPERTY

President Ripley's Views on Government Ownership.

REPLY TO A KANSAS EDITOR

Strongest Plea In Favor of Uncle Sam Controlling These Arteries of Trade Made by a Railroad Man—Scandal and Jobbery Would Result From the Change of Conditions.

CHICAGO, Jan. 20.—President Ripley of the Atchison, Topeka and Santa Fe railroad has written a letter to the editor of a Kansas Populist paper, replying to a communication published in that paper citing the number of people killed by the railroads of the United States as a reason why these railroads should be put under government control. Mr. Ripley points out that the railroads carry the whole population of the state of Kansas two and a half times over before one passenger is killed; that last year the trains on the railroads in Kansas ran over 800,000 miles, yet only one employee's life was sacrificed for every 481,000 miles.

Of 4,400 others killed in the United States in 1896, the reports show that 3,811 were trespassers, that is to say out of every 22 persons killed 19 were killed because they were breaking the law and were in places where the railway people had no reason to expect to find them.

He draws the conclusion that the plea of government ownership because of the number of persons killed by railroads is worthless. Next comes the question whether or not the owners of railroads are opposed to government ownership and he points out that the strongest plea made in behalf of government ownership is that of T. B. Blackstone, president of the Chicago and Alton road who urged it as a measure of justice to the railway investors. There is no holder of railway securities, he says, who does not believe that those securities would be advanced in value if there was any prospect of the government buying them.

The most serious considerations, Mr. Ripley says, political ones. There are 850,000 railway employees in the United States. Under government ownership each one of these would be a political appointee. This, he says, would not only lower the character of the service, but "would be appalling in the tremendous political supremacy which those 850,000 employees would give to the party in power."

"Worse still would be the political results of the contracts for the construction of new lines, etc. The scandals and jobbery of the river and harbor appropriations or of the tariff bill would be nothing compared to the field which would be open to the spoilsman by the railroads. The building of new lines would depend entirely on political 'pull.' Districts or states of a political complexion opposed to that of the party in power would have to wait till the crack of doom for any new lines, and in districts where the friends of the administration came from there would be lines as thick as stripes on a cat's back."

AMERICAN CROOKS.

Continued Revelations of Their Work in Mexico.

MEXICO CITY, Jan. 20.—The revelations regarding the operations of the gang of American crooks with Mexican allies continue to be made and show a most surprising series of swindles including the well known gold brick trick, robbing by means of rendering the victims insensible with knockout drops, cheating at cards, poisoning race horses on which the public had bet heavily, etc.

Mr. Taylor of this city, was lured by the gang into a town where he was told he would get large orders and was rendered insensible by drugged beer and robbed of his diamonds and money. The police are making fresh arrests.

CHAUTAUQUA ASSEMBLY.

Its Educational Work Successful During the Past Year.

ENR, Pa., Jan. 20.—The board of trustees of the Chautauqua assembly met at the Reed house yesterday with representatives from all parts of the country. The treasurer's report showed total receipts to the amount of \$94,000. The expenses were about \$8,000 less than this amount. Bishop Vincent, in his report as chancellor, called attention to the successful work of the educational department during the past summer and outlined plans for the coming season. The schools will continue under the charge of President W. R. Harper of the University of Chicago.

He Has Reached a Ripe Old Age.

The men who say that they are made of tough stuff and can stand anything, generally find that death is made of tougher stuff and are found in a coffin at an age when they should be doing their best and most useful work. It is time enough for a man to brag about his toughness when he has reached a ripe old age. The men who live long lives are the ones who take care of their health in youth and maturity. They realize the truth of the old saying that "a stitch in time saves nine." The ones who don't do this die off of nervous prostration, heart failure, and consumption.

The best of all health-restorers and health preservers is Dr. Pierce's Golden Medical Discovery. It cures 98 per cent. of all cases of consumption. It wards off nervous troubles and wasting diseases. It corrects all disorders of the digestion, invigorates the liver and restores the appetite. It fills the arteries with the pure, rich, red blood of health. It tears down, and carries off old, inert and half-dead tissues and replaces them by new. It builds firm, healthy flesh. It makes the muscles strong and elastic and steadies and tones the nerves. It cures debility and weakness of every description. It is the product of the life-time experience and study of an eminent and skillful specialist, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Thousands of men and women have testified to its virtues. Druggists sell it.

There is nothing in the world "just as good" although avaricious druggists will sometimes say so for the sake of the greater profit to be made upon the in-

MERRY HOPELESS.

The Wife Murderer Says the Jury Will Hang Him.

CHICAGO, Jan. 20.—The case of Chris Merry and James Smith will go the jury this afternoon. Merry expects no mercy. Smith does. "The jury will hang me," Merry repeated many times yesterday. He made practically no defense and was deaf to all the arguments of his attorneys. He feared the cross-examination. He said repeatedly: "I don't know who killed Polly. I did not see her—have never seen her since before 4 and 5 o'clock on Friday afternoon, Nov. 9."

"Why not go on the witness stand and tell your story to the jury?" urged Colonel Davidson, his counsel. "You cannot hurt your case, and you may benefit yourself."

OUTLAWS SURRENDERED.

Several of Black Jack's Gang Reported Killed.

TUCSON, Ariz., Jan. 20.—It is reported that Black Jack's gang of outlaws was surrounded in the mountains near the boundary line by several posses, including the posses sent out by the Mexican government, and a fight occurred in which one of the robbers was killed and four captured. Two attempted to escape after being caught, and were shot in flight. The other two were in the hands of the Mexican officers and it is claimed they met death in like manner. The remainder of the freeriders went in a southerly direction, and are supposed in the interior of Mexico in the Sierra Madre mountains.

The new rate to Dyea and Skagway, which goes into effect at once, is: First class, \$50; second class, \$35. The rate on freight is advanced from \$10 to \$13 per ton.

When she left the store with a friend, he asked to accompany them, and, being refused, he followed her home, overtaking her at the door. He pleaded earnestly to be taken back. This she refused to do, and he shot himself in her presence. The deceased was a breeder of fine saddle horses and quite wealthy. He left a will making his sweetheart, Mrs. Chilcoat, his heir.

A \$14,000 SHORTAGE

Motive For Treasurer Kirtley Committing Suicide at Fowler.

TIME TO START TO KLONDIKE.

Don't Wait For Spring to Start For the Klondike Is the Advice of an Indian—Indiana State Oratorical Contest. One Woman's Misfortunes—Likes His Old Home Better.

IND., Jan. 20.—The motive for the suicide of Treasurer James Kirtley of Benton county was disclosed last night, when the committee appointed to investigate the accounts of the suicide made their report. They found a shortage of \$14,000. Kirtley had just been re-elected treasurer and would have been called upon to account for money in his possession and give a new bond. At the time of his suicide he had not found bondsman.

News of the shortage created a sensation here. It is said that he left \$5,000 insurance, and real estate valued at \$5,000. His widow, who is worth about \$20,000, is said to be willing to make good the shortage. Kirtley killed himself on the night of Dec. 29.

DON'T WAIT.

Start For the Klondike Now Is the Advice of an Indian.

MONTPELIER, Ind., Jan. 20.—D. M. Schermerhorn has written his brother, P. V. Schermerhorn, of this city, from Alaska as follows:

"One thing I wish to say, and you can swear by it. If any one is going to Klondike, go at once; do not wait until spring. The reports in many of the papers about the pass are not true; it is all right. No one can get over White pass either now or in the spring, but the Chilkoot winter pass is now being traversed successfully. We made three trips from and to the seals in

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and disturb me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Restorative Nervine. Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle free, or money refunded. Book on disease of the heart and nervous system free. Address: DR. MILES MEDICAL CO., Elkhart, Ind."

Republican township convention next Saturday

Don't forget the township conventions Saturday January 22

Go to your township convention next Saturday and help select your representatives on the county central committee and choose delegates to the congressional convention at Greensburg, February 1.

Every republican in the county should bear in mind that Saturday January 22 is the date fixed to select the members of the county central committee, and to appoint delegates to the district convention, which will be held at Greensburg, February 1.

JOE KELLEY is a democratic candidate for clerk of the supreme court and while he lives in Indianapolis, he desires to announce from Jennings county. Though he once lived over in Jennings and it is said that his posing as a Jennings county man is for the purpose of dividing up the vote of the Fourth district with Allen W. Clark who is a candidate for the same office.

If the democrats of this district and in act of the state do not give the nomination to Clark practically without opposition they will be guilty of the grossest ingratitude for no man in the state has done so much for the party along the line of the Chicago platform as Clark.

The formal announcement of George F. McCulloch that he will not be a candidate for re-election as chairman of the republican state central committee will be regretted by the party throughout the state. His services on the committee and as chairman prove him to be a most capable man at the head of the party organization. His retirement for the present from the committee is brought about by the advice of his physicians who say he must be free from care and the responsibilities such as a campaign would bring.

He has been suffering much the past year from a lame knee and in fact spent all the last summer in private hospital in Indianapolis taking treatment. His active services will be greatly missed by the party.

POLITICAL BREVITIES.

Don't neglect to attend your township convention Saturday.

James M. Hess will take charge of the Indianapolis post office Feb. 1.

Parks Martin has been reelected chairman of the democratic state central committee.

The republicans of the Maryland legislature have so far failed to unite on a senatorial candidate.

The republicans of Jackson township meet in mass convention Saturday at the city building to select members of the county committee and delegates to the district convention to be held at Greensburg.

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation.

Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, to the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

OLD CATERER ON TERRAPIN.

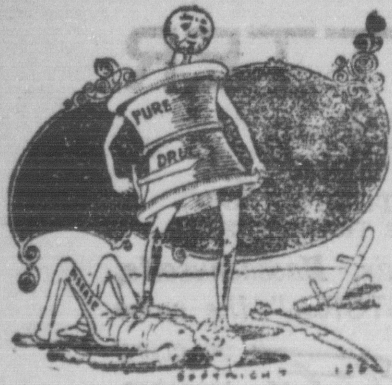

When It Is Ready, the Satisfaction Is In "Eating It All Yourself."

James Prosser, a famous colored caterer of this city, dead long ago, furnished the following formula for preparing and serving terrapin, which was published in a gastronomic journal at the time when he was on earth:

"You can't enjoy terrapin unless the day is nippin. Temperature and terrapin go hand in hand. Now, as to your terrapin. Bless you, there is all the difference in the world in them. The more northerly is the terrapin found the better. You eat a Florida terrapin—you needn't despise it, for terrapin is terrapin everywhere—but you get a Chesapeake one or a Delaware bay one, or, better still, a Long Island one, and there is just the difference between \$10 a dozen and \$30. Warm water kinder washes the delicate flavor out of them. Don't you let Mr. Bergh know it, but your terrapin must be boiled alive. Have a good big pot, with a hot fire under it, so that he shan't languish, and when it has got on a full head of steam pop him in. What I am going to give is a recipe for a single one. If you are awfully rich and go in for a gross of terrapin, just use your multiplication table. Just as soon as he caves in watch him and try his flippers. When they part when you pry them with your finger nail, he is good. Open him nicely with a knife. Billin of him dislocates the snuffbox. There ain't overmuch of it, more's the pity. The most is in the joints of the legs and side lockers, but if you want to commit murder just you smash his gill, and then your terrapin is gone forever. Watch closely for eggs and handle them gingerly. Now, havin' got him or her all into shape, put the meat aside. Take three fresh eggs—you must have them fresh. Bile 'em hard and mash 'em smooth. Add to that a tablespoonful of sifted flour, three tablespoonfuls of cream, salt and pepper (red pepper to a terrapin is just depravity) and two wingelashes of sherry wine. Wine as costs \$2.50 a bottle ain't a bit too good. There never was a gotega in all Portugal that wouldn't think itself honored to have itself mixed up with a terrapin. Now you want quite a quarter of a pound of the very best fresh butter and put that in a porcelain covered pan and melt it first—mustn't be browned. When it's come to be oily, put in your terrapin, yolks of egg, wine and all. Let it simmer gently. Billin up two or three times does the business. There ain't nothin that must be too pointed in terrapin stew. It wants to be a quiet thing, a suave thing, just pervaded with a most beautiful and natural terrapin aroma. You must serve it to the people that eats it on a hot plate, but the real thing is to have it on a chafin dish, and though a man ought not to be selfish there is a kind of divine satisfaction in eatin it all yourself."—Philadelphia Times.

The Modern Agnostic.

We look at our churches with their congregations, growing in numbers and dwindling in faith, says H. G. Chapman in The Atlantic, and we ask ourselves: In all these buildings, cheap or costly, what real prayers rise, and of those that rise do any get above the roof? What God hears them and has there ever been an answered prayer? We look at the face of the dead and repeat a burial service. If after the manner of men I have fought with beasts at Ephesus, what advantage did it me if the dead rise not? And as we say the words we ask ourselves, "Do the dead rise?" And if any one is found who believes these things he knows that there is another at his elbow who believes them not a whit or an atom, and these two can hit on no universe that shall satisfy both, nor can one be poet to the other.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist Will send Free, to the Afflicted, Three Trials of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the Seymour REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonial of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 98 Pine street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the Seymour REPUBLICAN.

Sick stomach means sick man [or woman].

Why not be well?

Sick stomach comes from poor food poor nourishment means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order.

But, unless we are doctors, we never see our stomach. We only feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat. It cures all the symptoms of indigestion, acts as a tonic and soon makes you well and strong again.

When you take the less you will feel of your stomach.

The next chapter of Charles A. Dana's "Reminiscences of men and events of the Civil War" (in the February McClure's) will give Mr. Dana's impressions of Rosecrans, Thomas and Garfield as he saw them socially, and in council and in fight, at the time of the battle of Chickamauga. It will also give the inner history of Thomas' displacement of Rosecrans. The paper will be illustrated with interesting portraits and views.

"I take pleasure in recommending Chamberlain's Colic, Cholera and Diarrhoea Remedy to all who suffer from pains in the stomach," says Mr. Milt McKinley, editor of the Rawdon (Ohio) Herald. By taking it as soon as the first symptoms of the attack are felt, I no longer suffer this unpleasant sickness." For sale by C. W. Milhouse.

THE DREADED BACK DRAFT.

One of the Worst Perils That Confront the Fireman.

In St. Nicholas there is an article on "The Perils of a Fireman's Life," by Charles T. Hill, who has written several articles on the New York fire department for this magazine. Mr. Hill says:

Next to a dangerous cellar fire nothing is more dreaded by the men than what is known in their own language as the "back draft." This is a sudden veering of the flames, usually caused by the burning away of some portion of the building that gives the fire renewed draft and changes its course completely.

The firemen arrive and find the whole second or third floor of a building in flames. Axes in hand, they smash open the doors, and with the hose dash on the stairs. This is all afire, and the flames are rolling above like a red pall.

With the engine at work and good pressure on the line, the battle between the two elements, fire and water, begins. Inch by inch the men fight their way up the stairway, now to retreat as the fire gains upon them and now to advance as it rolls away for a moment.

The encouraging words of the commanding officer are heard behind them urging them on: "Now, get in, boys! That's it—get in—get in! Make the next landing! Hit it up, boys!" and all the other words of encouragement that he usually gives.

They finally reach the landing. They are on the floor with the fire. It rolls away from them. They drive it farther back. Encouraged by their seeming victory, they drag up more of the heavy hose to make a final dash at it, when suddenly something falls in at the rear of the fire that gives it renewed draft. It rolls toward them, an impenetrable wall of fire—the deadly back draft! Their only chance of escape is to throw themselves upon their faces, in hope that it may roll over them, or to hurl themselves down the stairs up which they have so gallantly fought their way. Better a broken leg or arm than death by roasting, and the water of 50 engines could never stay the progress of that awful wave of flame.

Many a brave fellow has lost his life in this manner, and very often all the members of a company return with their eyebrows, hair and beard singed off, bearing evidence that they have been "kitched," as they express it, by a less terrible form of this deadly draft.

VILLAGE ODDITIES.

English Towns Distinguished For Being One of a Kind.

Undoubtedly the most extraordinary township in England is that of Shiddaw, in Cumberland. It contains but one house, the occupier of which is unable to exercise the Briton's privilege of voting because there is no quorum to prepare a voters' list and no church or other place of worship or assembly on which to publish one.

The most remote village in England is that of Farley-cum-Pittton. This truly rural spot is 30 1/2 miles from the nearest railway station. As a contrast to this may be mentioned that at Ystad, about 15 miles from Cardiff, this tiny settlement possesses two important main roads, two railways and two large rivers.

A very unique feature is exclusively claimed by Trillick, a small village in Suffolk. In the one churchyard of the parish two churches are to be seen. Service is conducted three times a week in each of these churches at the same hour.

The deepest well in England is found at Hamilton, in Hampshire. It stretches 850 feet below the surface of the earth. About half way down this well shaft is a subway, three miles in length, which leads to the seacoast.

On the top of the parish church tower in Bicknoller, Somersetshire, is a yew tree, now five feet high and still growing in a hardy fashion. It is generally believed that the tree owes its origin to a seed dropped by a bird.

Perhaps the most splendidly decorated church in the kingdom is that of Whitley Court, Worcestershire. It is entirely constructed of white marble, the pews are chastely carved, and the pulpit is of genuine Carrara marble, richly paneled with precious stones.

On the village green at Meriden, in Warwickshire, there is a large stone cross which is supposed to mark the central point of England.—Pearson's Magazine.

A Thing to Store At.

Schoolfellows learn each others' failings if nothing else and recall after years of separation the characteristic things of an old seatmate.

Two men who had been at school together when they were boys met and talked of old times.

"By the way," said one, "I saw Smith when I was out at Seattle."

"Did you? And what was he bragging about when you saw him?"

"He was bragging about his modesty just at that moment."

"Dear old Smith—just like him." Youth's Companion.

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and disturb me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

CALL FOR REPUBLICAN PRIMARY.

The republicans of the city of Seymour, Indiana will hold a primary election on Tuesday the 8th day of March. Polls will be opened at one o'clock p. m., and will close promptly at 8 o'clock p. m. There will be one voting place in each ward, place to be designated later. The following officers will be voted for: Mayor, marshal, city clerk, city treasurer, city judge and one councilman from each ward of the city. All persons wishing to be candidates for any of the offices must notify the city chairman not later than the 1st day of March, 1898.

By order of the City Committee. W. H. BURKLEY, Chairman. C. A. DAY, Secy.

Republican township convention next Saturday.

Don't forget the township conventions Saturday January 22.

Go to your township convention next Saturday and help select your representatives on the county central committee and choose delegates to the congressional convention at Greensburg, February 1.

EVERY republican in the county should bear in mind that Saturday January 22 is the date fixed to select the members of the county central committee, and to appoint delegates to the district convention, which will be held at Greensburg, February 1.

JOB REILEY is a democratic candidate for clerk of the supreme court and while he lives in Indianapolis, he desires to announce from Jennings county. Though he once lived over in Jennings he has not resided there for some time and it is said that his posing as a Jennings county man is for the purpose of dividing up the vote of the Fourth district with Allen W. Clark who is a candidate for the same office.

If the democrats of this district and in act of the state do not give the nomination to Clark practically without opposition they will be guilty of the grossest ingratitude for no man in the state has done so much for the party along the line of the Chicago platform as Clark.

The formal announcement of George F. McColloch that he will not be a candidate for re-election as chairman of the republican state central committee will be regretted by the party throughout the state. His services on the committee and as chairman prove him to be a most capable man at the head of the party organization. His retirement for he present from the committee is brought about by the advice of his physicians who say he must be free from care and the responsibilities such as a campaign would bring. He has been suffering much the past year from a lame knee and in fact spent all the last summer in private hospital in Indianapolis taking treatment. His active services will be greatly missed by the party.

POLITICAL BREVITIES.

Don't neglect to attend your township convention Saturday.

James M. Hess will take charge of the Indianapolis post office Feb. 1.

Parks Martin has been reelected chairman of the democratic state central committee.

The republicans of the Maryland legislature have so far failed to unite on a senatorial candidate.

The republicans of Jackson township meet in mass convention Saturday at the city building to select members of the county committee and delegates to the district convention to be held at Greensburg.

How to Look Well

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive you have a bilious look; if your stomach be disordered you have a dyspeptic look; if your kidney be affected, you have a pinched look. Secure good health and you will surely have good looks. "Electric Bitters" is a good alternative and tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peters drug store. 50 cents per bottle.

Drowned.

A message was this morning received by C. C. Frey stating that a man named Cross, who is well known here as a fertilizer salesman, was drowned near Paoli last night. No particulars. It is believed here that the drowned man is Sherman Cross, who resided near Houston.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well informed people will not buy other laxatives, which act for a time, but finally injure the system. Many stores in the city were flooded with the rain last night caused by imperfect show windows and much goods were ruined by water.

The council would confer, a lasting benefit on the people on Cincinnati avenue by opening the ditch so that the people can get out of their homes during high water.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
